

How to match you and your phone with a Safesleeve EMF protective case

Grounded Wellness has EMF protective phone cases for iPhone, Samsung and some universal fit options. Here is the easy 3 step guide to ensure you and your phone are protected ASAP.

Step 1. Identify the Model Name

Go to your phone to identify exactly which make and model you have. The way to access your Model Name can vary but here is a guide for this essential step.

Samsung

- > One way is to flip your phone to look at the code starting 'SM-...'
- > Then Google search the Model Number to find the Model Name on the relevant manual.

OR

- > Open the System or Settings menu.
- > Select About Phone, About Device or similar.
- > See Model Name. If you can only see your Model Number, you can use this to Google the manual and identify the Model Name there.
